

Neighbourhood Plan Progress

Finally, we have an update! The committee has been working on several policies including Heritage, Rural Character, Future Housing Needs, Local Green Spaces, Infrastructure and Employment.

The committee has handed over much of the work that it has completed to our consultant. He feels that the plan is 85% complete and he will be able to pull it into shape and have something for us to review by the end of August 2019.

Once the Advisory Committee has completed the draft plan, it will be handed over to the Parish Council to be signed off. When the Parish Council is happy with it, it will go to H&BBC where it will undergo a lengthy period of consultations, an independent examination and a referendum. If more than 50% of Stoke Golding residents approve of the plan, it will be adopted.
