Section1: Introduction

What is a Neighbourhood Plan?

Neighbourhood planning gives communities direct power to develop a shared vision for their neighbourhood and shape the development and growth of their local area. Neighbourhood planning provides a powerful set of tools for local people to ensure that they get the right types of development for their community where the ambition of the neighbourhood is aligned with the strategic needs and priorities of the wider local area.

Our plan will last until 2036, subject to any new government or local government planning policies.

Once approved, our plan will have legal force in setting out what development is acceptable and for what reasons. Developers and Local Authority planners will have to take notice of it. Without a Neighbourhood Plan, we will have little control over any development that takes place and will receive less funds from these developments

We can influence development, but not stop it altogether.

Our Neighbourhood Plan must comply with Hinckley and Bosworth Borough Council's Local Plan and the government's wider policy of sustainable development. This means that it is inevitable that some new housing will have to be built in Stoke Golding in the future. Having a Neighbourhood Plan in place will help us ensure that this housing is suitable and meets the needs of our area. It will also help us to identify the facilities and services that need to be in place as the community changes up to 2036

More information about Neighbourhood Plans is at www.gov.uk/guidance/neighbourhood-planning--2 .
