Subject: SGVH vision for neighbourhood plan

Hi [REDACTED]

Please can you forwarder vision to [REDACTED] as our response for the neighbourhood plan.

Many thanks

[REDACTED]

Our Vision for the Stoke Golding Village Hall in the future

We believe the Village Hall positioned as it is near to the heart of the village centre should continue and develop more as a focus for communal activities, an important vibrant hub necessary in a future challenging world.

It should reflect the needs of all age groups including disadvantaged people young and older, providing for sports, social and educational needs. Therefore expansion to provide such facilities should be an ongoing consideration and requirement. Development of smaller relaxed meeting areas, to include refreshment bars to suit should always be part of future planning.

Technology of the time should be embraced to allow for educational and social needs, for security, energy management use i.e. lighting and heating. As a first step consideration should be given to connecting to the internet and providing a WiFi Network
